IGNITER ELECTRODE REINSTALLATION

REASSEMBLY NOTE: Do not use any tools to install igniter electrode — just your fingers. Install igniter electrode into mounting bracket located on burner tube 1. Push igniter electrode in until you hear a snap or feel it lock into place.

VISUAL INSPECTION: Make sure that the igniter electrode is even with the burner tube mounting bracket.

⚠ WARNING: Make sure all control knobs are turned to the OFF position before reconnecting gas supply and operating grill. Your actions, if you fail to follow this product warning, may cause a fire, an explosion, or structural failure resulting in serious personal injury or death as well as damage to property.

9

See Owner's Guide for complete instructions for connecting gas source.

⚠ WARNING: Make sure all control knobs are turned to the OFF position before reconnecting gas supply and operating grill. Your actions, if you fail to follow this product warning, may cause a fire, an explosion, or structural failure resulting in serious personal injury or death as well as damage to property.

10

CHECK FOR GAS LEAKS

⚠ DANGER

Do not use an open flame to check for gas leaks. Be sure there are no sparks or open flames in the area while you check for leaks. Sparks or open flames will result in a fire or explosion, which can cause serious bodily injury or death and damage to property.

You will need: a soap and water solution and a rag or brush to apply it.

- A) Mix soap and water.
- B) Make sure burner knobs are to the OFF position.
- C) Turn on gas supply at source.
- D) Check for leaks by wetting fittings with soap and water solution and watching for bubbles. If bubbles form, or if a bubble grows, there is a leak.
- E) When leak checking is complete, turn gas supply off at source and rinse connections with water.

Check Connections:

1 2 3

If there is a leak at connections 1, 2 or 3, retighten the fitting with a wrench and recheck for leaks with soap and water solution. If a leak persists after retightening the fitting, turn OFF the gas.

Check Fittings:

4 5 6 7 8 9 10

If there is a leak at fittings 4, 5, 6, 7, 8, 9 or 10, turn OFF the gas.

⚠ WARNING: If a leak at ANY connection persists turn OFF the gas. **DO NOT OPERATE THE GRILL.** Failure to follow dangers, warnings and cautions contained in this instruction sheet may cause a fire or an explosion resulting in serious personal injury or death as well as damage to property. Contact the Customer Service Representative in your area using the contact information on our web site. Log onto www.weber.com

When leak checks are complete, turn gas supply OFF at source and rinse connections with water.
